As I near the completion of my Bachelor's degree in Computer Science at An-Najah National University, I bring hands-on experience in web development, with a particular focus on using ASP.NET and React to build professional and seamless web applications. I also hold a certification from Knowledge Academy in Front-End Development, alongside a growing interest in enhancing user experience and designing effective interfaces.
Driven by a passion for innovation and continuous learning, I am eager to contribute to groundbreaking digital projects that combine security, high performance, and exceptional user experience.

Work Experience

Mzad Palestine (Ongoing)

1. I am the Project Leader and Developer for "Mzad Palestine," a smart auction platform focused on providing secure transactions and unique bidding experiences.
2. I use ASP.NET Core and React for platform development to ensure high performance and security.
3. I collaborate with a team to deliver scalable solutions and maintain platform security.

Knowledge Academy (Certification Program)

1. I completed hands-on training in front-end development, gaining proficiency in HTML, CSS, JavaScript, and React.
2. I contributed to the development of responsive and interactive web pages, focusing on optimizing user experience and interface.
3. I also completed backend development training, enhancing my skills in server-side technologies.

Education

Al_Najah University

Major: Computer Science

August 2021 - August 2025
